Photographic Documentation For (b) (6) - Complaint

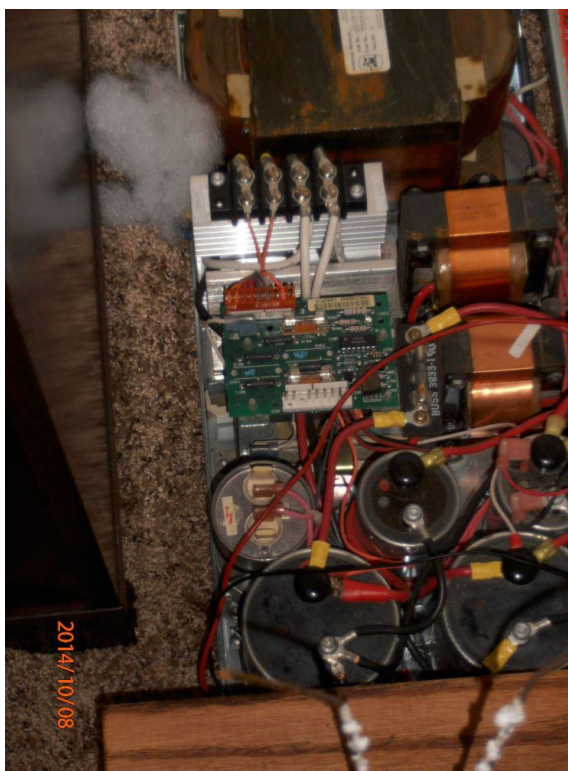

Photograph 1: Fusion equipment – living room

Photograph 2: Close-up of fusion equipment

Photograph 3: glassware, light tubes, green unknown liquid in beaker (right) located on tray - living room

Photograph 4: electrical components, unknown usage - living room

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

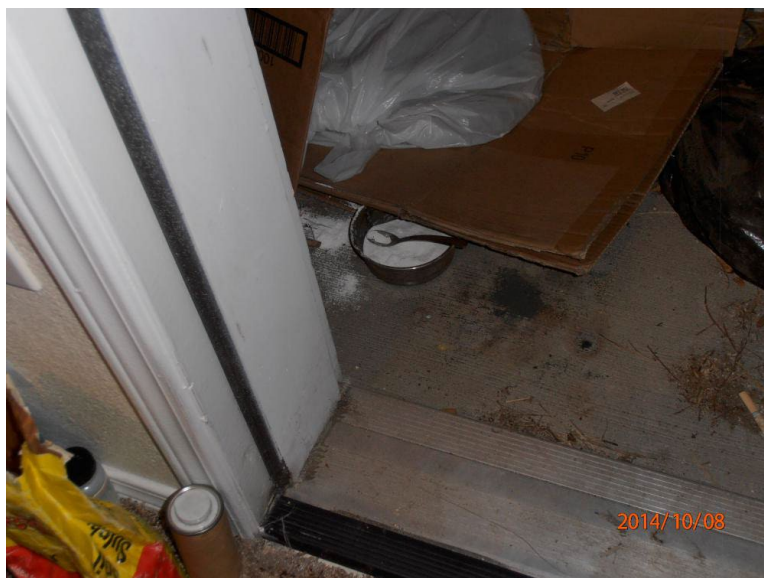

Photograph 5: liquid nitrogen container (closed) - living room

Photograph 6: close-up view of marking, volume of container unknown

Photograph 7: view to E. Private porch, accessed from living room, bags of solid waste, unknowns; door (upper center) leads to storage closet, see photos 73 and 74

Photograph 8: entryway to porch. White powder on concrete floor and in small bowl (unknown), dark gray powder (right of small bowl) see photo 11

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 9: Close-up of white powder – photo 8

Photograph 10: View to N. bags and boxes (unknown contents) on porch; white powder (lower left)

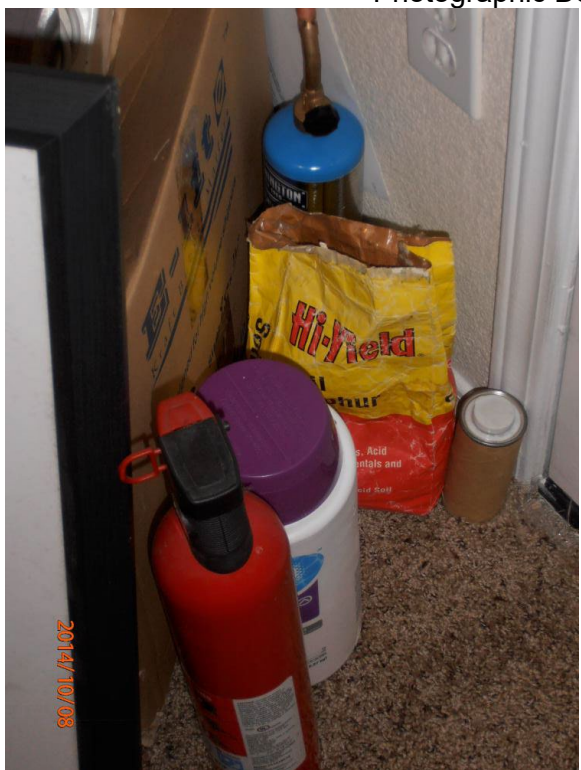

Photograph 11: Close-up of dark gray powder – Photo 8 on porch

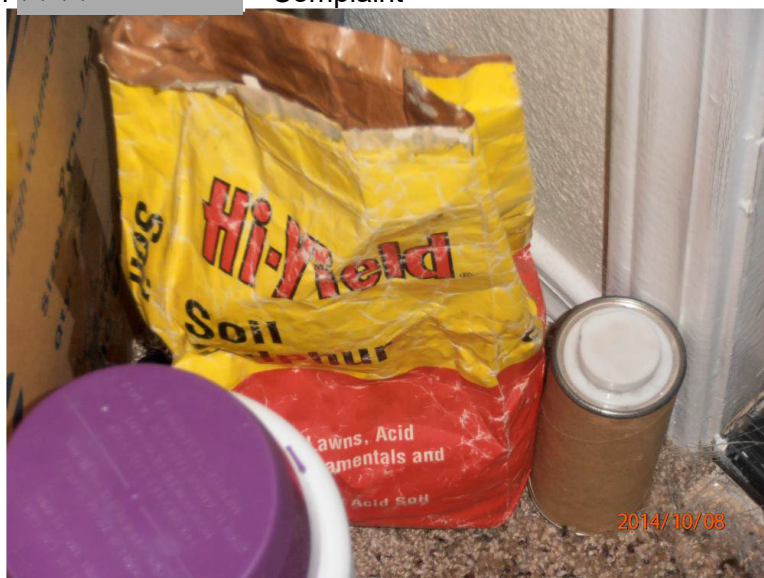

Photograph 12: Porch, white powder smear on cardboard sheet

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 13: View to NE. in living room, door to porch at right; chemicals containers, burner (rear), fire extinguisher, unmarked container (far right)

Photograph 14: Close-up of Photo 13, open bag of Hi-Yield Soil Sulfur, unmarked container at right

Photograph 15: Moved fire extinguisher (Photo 13) to view container label

Photograph 16: kitchen – alleged potassium cyanide container hidden under plastic bags, located between refrigerator and pantry

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 17: West (b) (6)'s bathroom sink

Photograph 18: kitchen sink, photo taken to see if chemical staining was present; no obvious staining observed

Photograph 19: kitchen garbage disposal sink; brown/reddish staining (lower)

Photograph 20: West bathroom cabinet

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

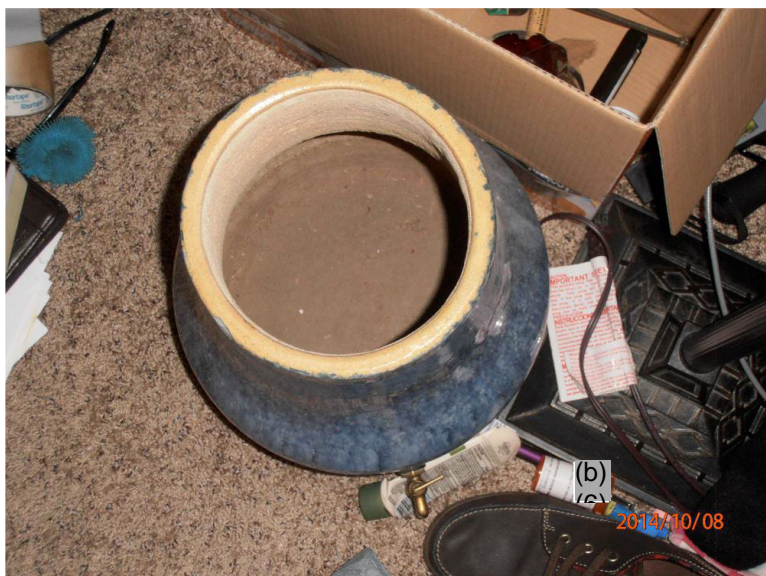

Photograph 21: West bathroom cabinet

Photograph 22: West bathroom cabinet; unknown red liquids and yellow powder in plastic cups

Photograph 23: East (b) (6)s bedroom; green powder on white paper, dark powder on yellow paper (underneath)

Photograph 24: East bedroom, ceramic pot

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 25: West bedroom, assorted equipment, watch dials, unknown green substance in vial (lower center) and gold-colored material in tube (lower left)

Photograph 26: INL visitor badge, medicine containers

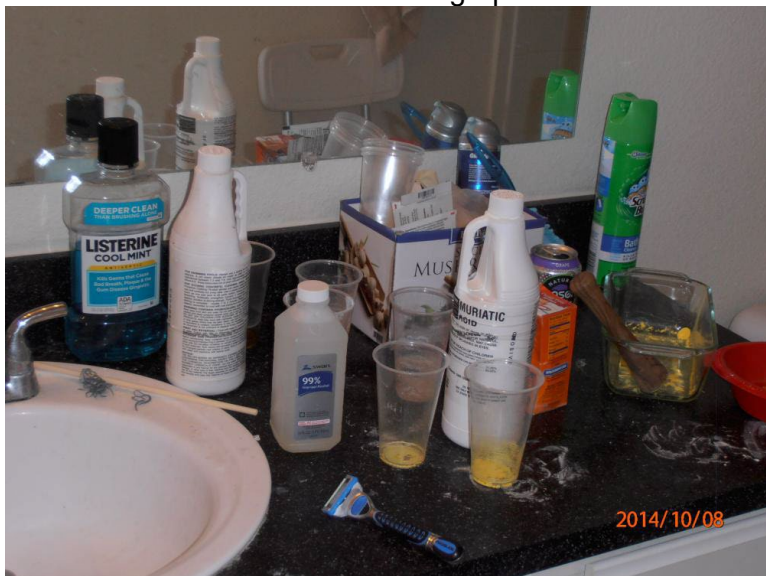

Photograph 27: East bathroom (left side of counter), unknown liquids and solids in plastic cups

Photograph 28: East bathroom sink, dark powder staining on left side of faucet

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

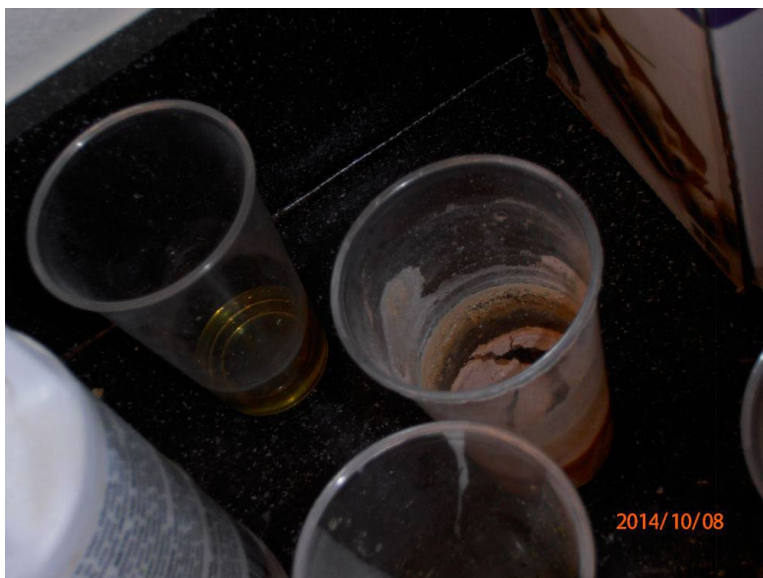

Photograph 29: East bathroom counter (right side)

Photograph 30: Close-up of yellow solids in plastic cups – Photo 29

Photograph 31: Close-up of containers; red-brown solids in cup (left), Muriatic acid (liter) container – Photo 29

Photograph 32: Close-up of unknown liquid (left) and solid material (right) – Photo 29

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 33: East bathroom counter; unknowns - yellow powder in glass pan, white powder on counter top, and orange-yellow, chip-like material in red bowl

Photograph 34: Corner of counter top in relation to toilet

Photograph 35: Close-up of red bowl with unknown solid chips and powder - Photo 34

Photograph 36: East bathroom, view under counter (left side); unknown green liquid in plastic cup, unknown contents of small bottle

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 37: Close-up view of Photo 36; unknown green liquid and unknown contents of "vitamin" bottle

Photograph 38: View into right side of cabinet, cleaning liquid

Photograph 39: West bedroom, mineral and ore specimens in box,

Photograph 40: Close-up view of Photo 28; dark stain and powder (unknown) on left side of faucet

Photograph 41: sink bowl, staining

Photograph 42: Close-up, sink drain, dark stains

Photograph 43: discarded latex gloves and plastic funnel on floor between counter and toilet

Photograph 44: bathtub, possible stains around drain

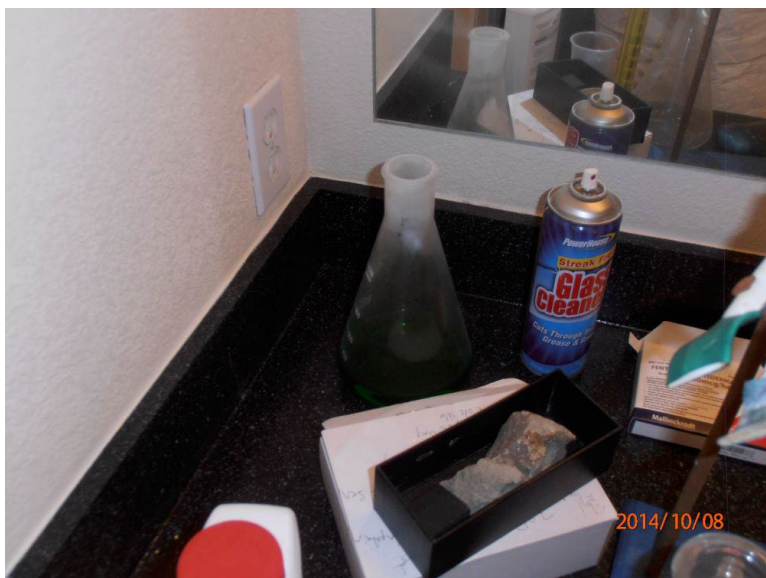

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 45: Muriatic acid and drain cleaner on east bathroom floor beside bathtub

Photograph 46: East bathroom, left side of sink; unknown solid material (yellow) in plastic cups

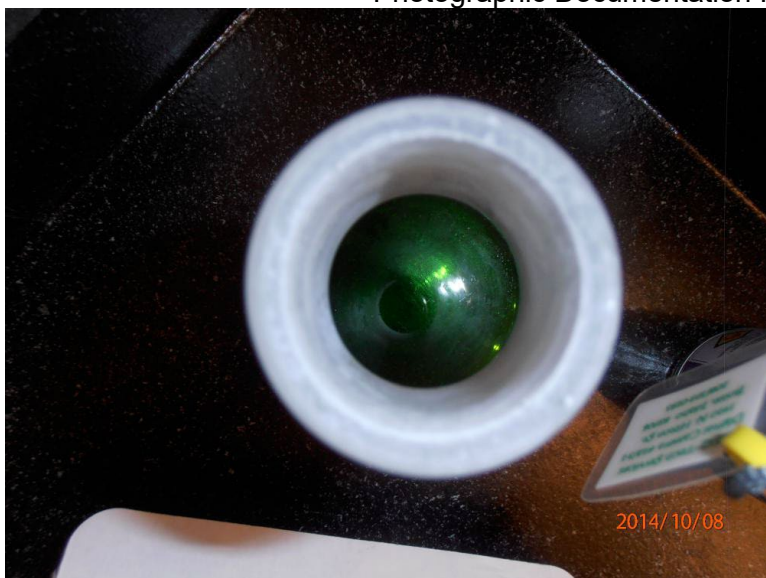

Photograph 47: mineral specimens (black box) and beaker of unknown liquid

Photograph 48: Close-up view of beaker, approximately 1/2 full

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 49: View into top of beaker, emerald green liquid

Photograph 50: watch dial on bathroom floor

Photograph 51: East bathroom closet, various chemical containers

Photograph 52: blurred, label marked as cat medicine

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 53: Unknown liquid in containers

Photograph 54: multiple small bottles of chemicals

Photograph 55: blurred label marked as "ferric cyanide"

Photograph 56: close-up view of Photo 54

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 57: right side of top shelf in closet, multiple chemical containers

Photograph 58: second shelf in closet, small vials, ampules and plastic sups containing unknowns

Photograph 59: left side of second shelf, yellow crusty, coating inside and outside of cup (unknown)

Photograph 60: white cap contains yellow powder (unknown)

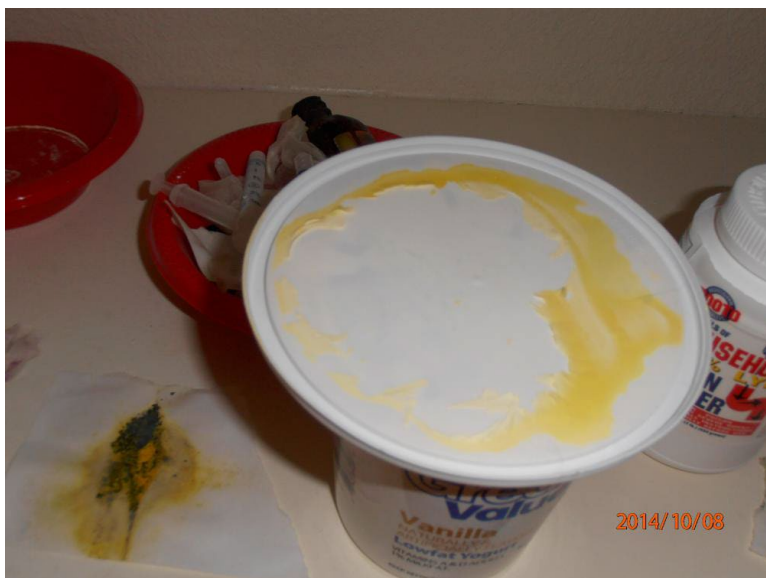

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 61: third shelf in closet; black powder on yellow paper, yellow crystals in green bowl, yellow chips in red bowl

Photograph 62: Close-up, yellow chips in bowl

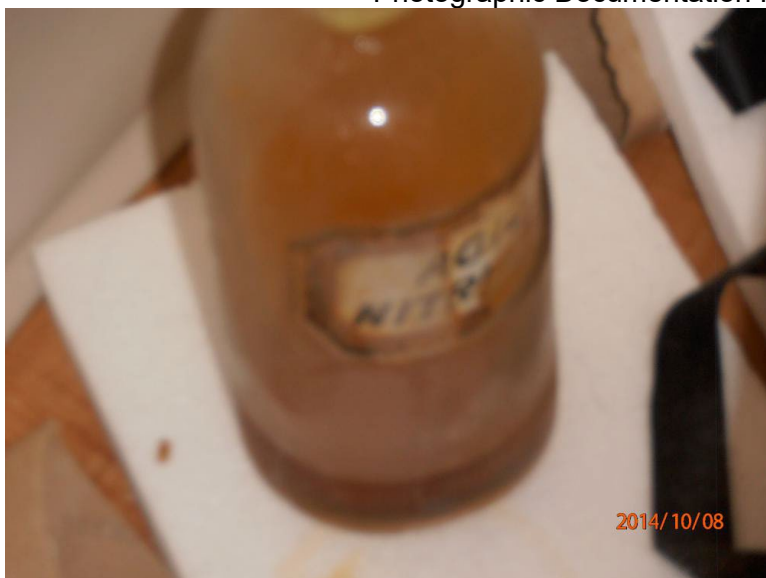

Photograph 63: Yellow and black powders on white paper (left), yellow powder in plate

Photograph 64: glass bottle, marked "nitric acid"; fine crystals around bottle top edge of

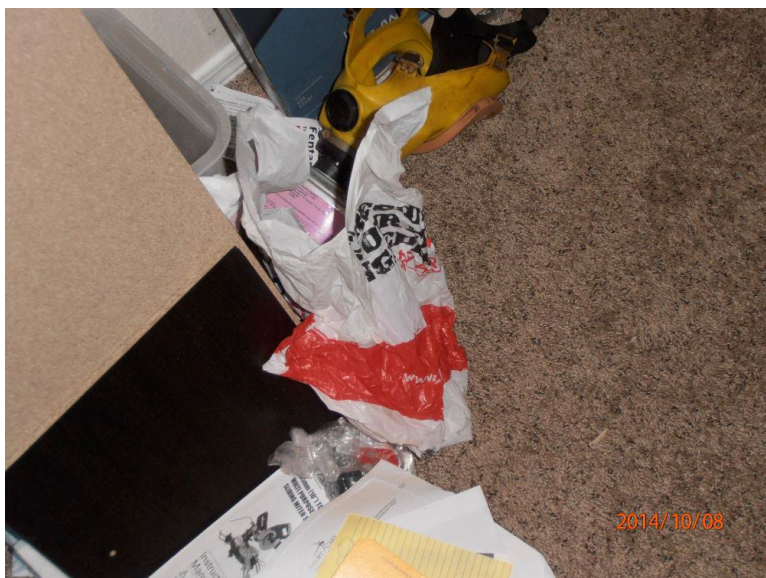

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 65: Close-up of old label – Photo 64

Photograph 66: right side of third shelf in closet; drain cleaner and container marked "Oxalic acid"

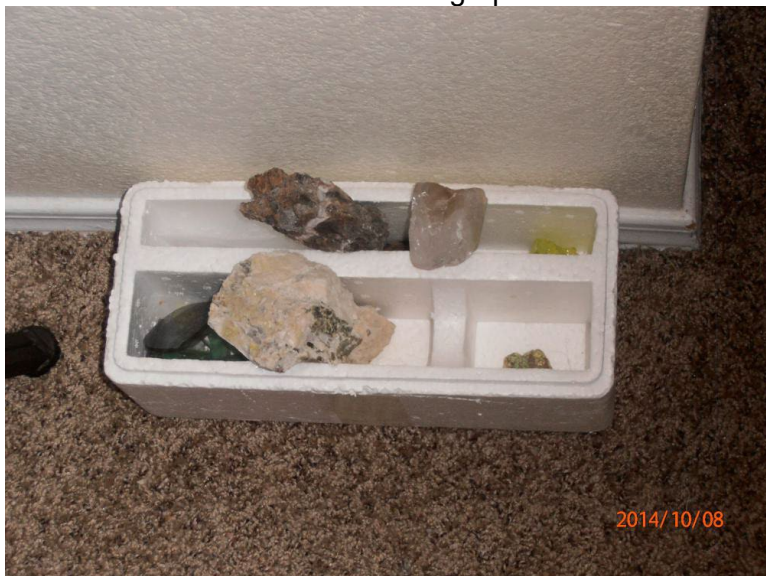

Photograph 67: Red and white bag (contents unknown), photo taken for NRC staff

Photograph 68: View to E. East bedroom window sill; dark gray powder on yellow paper

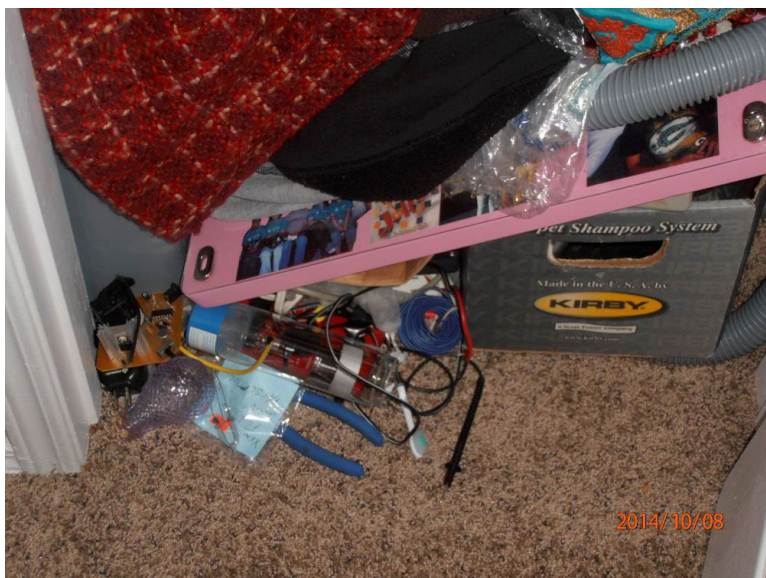

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 69: view to S. mineral specimens on floor in living room (kitchen counter wall in background)

Photograph 70: Column on table in living room

Photograph 71: View to S. into hall closet; assorted equipment and tools

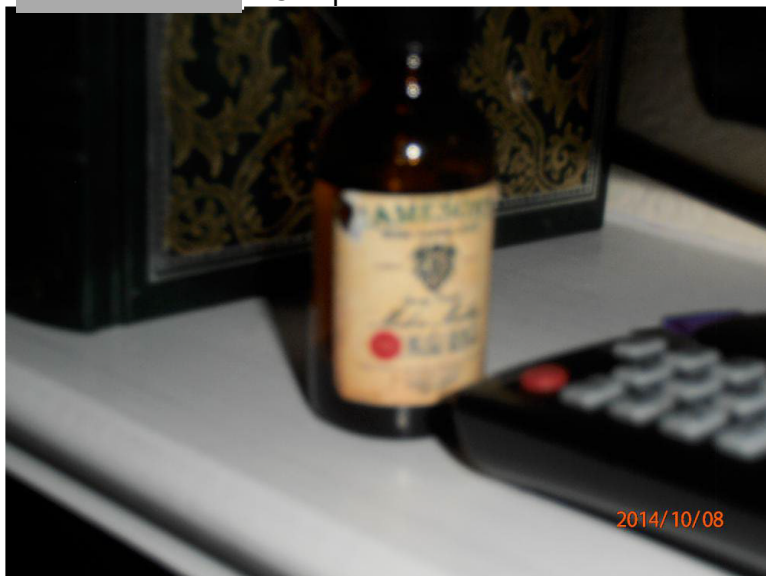

Photograph 72: View into storage closet located on private porch; see Photo 7; bags and boxes of unknown material

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 73: View into storage closet located on private porch; see Photo 7; bags and boxes of unknown material

Photograph 74: blurred close-up of Photo 75

Photograph 75: Alleged red oily liquid in "Jameson" bottle; located on fireplace mantle in living room

Photograph 76: Living room – collector glassware items

Idaho Department of Environmental Quality
Photographic Documentation For (b) (6) - Complaint

Photograph 77: small bottle marked as “bacteria coliform”, located on kitchen counter top

Photograph 78: “Geiger counter” located on kitchen counter top

Photograph 79: syringe, white pills and orange Fiesta ware containers on kitchen counter top

Photograph 80: View to E. along top of kitchen counter
